

Tim Harvey

Looking forward to a full time career
in the Denver/Boulder area!

Things I Look For In a Company:

- Innovation in biology, healthcare, or neuroscience
- Open and honest culture, ability to ask "why"
- Growing company with clear values and impact
- Most industries considered except pharma, defense

Job Titles/Departments Sought

- Project Manager/Coordinator
- Non-technical Engineering Manager
- Product Management
- Process Improvement
- VC/PE Analyst

Education:

- CU-Boulder
 - Master's of Engineering, Engineering Management
 - Part-time, online classes in progress. Program GPA 4.0
- University of Denver
 - BS/BS Cognitive Neuroscience
 - Majors: Biology, Psychology
 - Minors: Medical Physics, Chemistry, Business

Experience:

- 7 years Consulting: Incl. Fortune 500 Consulting Project Manager and Lead Consultant
- 6 years Healthcare: IT Director, process improvement, advising physicians
- 4 years Sales/Management: ~\$2 million in sales
- 3 years Investing/Finance: Investments, planning, writing articles
- 1.5 years Project Management/Applied Neuroscience: EEG, eye-tracking, biometrics

Value I Can Add:

- Connecting science and business
- Analytical thinker with big picture perspective
- High emotional intelligence
- Translating between engineers and executives
- Positive attitude
